

## This Month on Cancer.Net

### Resources for Teens With Cancer

The teenage years can be a difficult period of growth and development on many fronts, which can make the added challenge of dealing with cancer seem overwhelming. To support teens with cancer, Cancer.Net offers information about cancer types, treatment, coping with the changes that may occur, and links to other websites specifically designed for teenagers.

- Tests and Procedures
- The Oncology Team
- What is Cancer?

## Inspirational Fundraising

After learning about their longtime elementary school principal's kidney cancer diagnosis, members of the Malibu, California school district banded together in support. Led by Principal Phil Cott's two children, students from the local elementary and high schools sold bracelets representing kidney cancer awareness to fundraise for [The ASCO Cancer Foundation](http://The ASCO Cancer Foundation). To date, the volunteers have raised several thousands of dollars and increased community-wide awareness about cancer. This community's efforts demonstrate how any of us can make a world of difference in cancer care.

## For Patient Advocates

[Register now](#) to beat the April 28 early registration deadline for the [2010 ASCO Annual Meeting](#), a forum for breaking scientific and educational developments in oncology, June 4 - 8 in Chicago, Ill. **DONATE NOW**

*Inside Cancer.Net* is a monthly newsletter highlighting new content and features of the American Society of Clinical Oncology's (ASCO) patient information website, Cancer.Net ([www.cancer.net](http://www.cancer.net)). The website brings ASCO's expertise to people with cancer and those who care for and care about them. ASCO is composed of more than 28,000 oncologists globally who are leaders in advancing cancer care. All the information and content on Cancer.Net was developed and approved by the cancer doctors who are members of ASCO, making Cancer.Net the most up-to-date and trusted resource for cancer information on the Internet. Cancer.Net is supported by The ASCO Cancer Foundation, which provides support for cutting-edge cancer research, professional education, and patient and family support.
