- What type of sarcoma do I have?
- Where exactly is the tumor located?
- What stage and grade is the sarcoma? What does this mean?
- Can you explain my pathology report (laboratory test results) to me?
- How experienced are you in treating this specific type of sarcoma?
- What are my treatment options?
- What clinical trials are open to me? Where are they located, and how do I find out more about them?
- What treatment plan do you recommend? Why?
- Is surgery an option to remove the sarcoma?
- Do you recommend any additional treatment?
- What is the goal of each treatment? Is it to eliminate the sarcoma, help me feel better, or both?

- Who will be part of my health care team, and what does each member do?
- Who will be coordinating my overall treatment and follow-up care?
- What are the possible side effects of this treatment, both in the short term and the long term?
- How will this treatment affect my daily life? Will I be able to work, exercise, and perform my usual activities?
- Could this treatment affect my sex life? If so, how and for how long?
- Could this treatment affect my ability to become pregnant or have children? If so, should I talk with a fertility specialist before cancer treatment begins?
- How can I keep myself as healthy as possible during and after treatment?
- Will you recommend specific cancer rehabilitation services for me after treatment?
- What is my prognosis?
- What are the chances that the cancer will recur (come back)?
- If I'm worried about managing the costs related to my cancer care, who can help me with these concerns?
- What follow-up tests will I need, and how often will I need them?
- What support services are available to me? To my family?
- Whom should I call for questions or problems?
