

Carcinoid Tumor - Questions to Ask the Doctor [1]

This section has been reviewed and approved by the [Cancer.Net Editorial Board](#) [2], 03/2014

ON THIS PAGE: You will find some questions to ask your doctor or other members of your health care team to help you better understand your diagnosis, treatment plan, and overall care. To see other pages, use the menu on the side of your screen.

Talking often with the doctor is important [3] to make informed decisions about your health care. These suggested questions are a starting point to help you learn more about your cancer care and treatment. You are also encouraged to ask additional questions that are important to you. You may want to print this list and bring it to your next appointment, or download Cancer.Net's free mobile app [4] for an e-list and other interactive tools to manage your care.

- Where is the carcinoid tumor located?
- What is the stage of my cancer? What does this mean?
- Can you explain my pathology report (laboratory test results) to me?
- Do I have carcinoid syndrome? What does this mean?
- Is my heart affected by the tumor? How will you monitor my heart's health and performance?
- What are my treatment options?
- What clinical trials are open to me? Where are they located, and how do I find out more about them?
- Which treatment plan do you recommend? Why?
- What is the goal of each treatment? Is it to eliminate the cancer, help me feel better, or both?
- Can surgery remove the entire tumor? If not, can surgery be done to debulk the tumor? What is the benefit of this?
- Who will be part of my health care team, and what does each member do?
- Who will be coordinating my overall treatment and follow-up care?
- What are the possible side effects of this treatment, both in the short term and the long term?
- How will this treatment affect my daily life? Will I be able to work, exercise, and perform my usual activities?
- Could this treatment affect my sex life? If so, how and for how long?
- Could this treatment affect my ability to become pregnant or have children? If so, should I talk with a fertility specialist before treatment begins?
- If I'm worried about managing the costs related to my cancer care, who can help me with these concerns?
- What are the chances that the tumor will recur?

- What follow-up tests will I need, and how often will I need them?
- What support services are available to me? To my family?
- Whom should I call for questions or problems?
