

Fallopian Tube Cancer - Questions to Ask the Doctor [1]

This section has been reviewed and approved by the [Cancer.Net Editorial Board \[2\]](#), 07/2013

ON THIS PAGE: You will find some questions to ask your doctor or other members of your health care team, to help you better understand your diagnosis, treatment plan, and overall care. To see other pages, use the menu on the side of your screen.

Talking often with the doctor is important [3] to make informed decisions about your health care. These suggested questions are a starting point to help you learn more about your cancer care and treatment. You are also encouraged to ask additional questions that are important to you. You may want to print this list and bring it to your next appointment, or download Cancer.Net's free mobile app [4] for an e-list and other interactive tools to manage your care.

- What is the exact type of fallopian tube cancer that I have?
- Can you explain my pathology report (laboratory test results) to me?
- What is the stage of my cancer? What does this mean?
- What is the grade? What does this mean?
- What are my treatment options?
- What clinical trials are open to me? Where are they located, and how do I find out more about them?
- What treatment plan do you recommend? Why?
- What is the goal of each treatment? Is it to eliminate the cancer, help me feel better, or both?
- Who will be part of my health care team, and what does each member do?
- Who will be coordinating my overall treatment and follow-up care?
- What is my prognosis? What does this mean?
- What are the chances that the cancer will recur?
- What are the possible side effects of this treatment, both in the short term and the long term?
- How will this treatment affect my daily life? Will I be able to work, exercise, and perform my usual activities?
- Could this treatment affect my sex life? If so, how and for how long?
- Could this treatment affect my ability to become pregnant? If so, should I talk with a fertility specialist before cancer treatment begins?
- If I'm worried about managing the costs related to my cancer care, who can help me with these concerns?
- Should I see a genetic counselor? Should I consider testing for mutations in genes that put me and my family at higher risk for gynecologic cancers?

- How can I keep myself as healthy as possible during treatment?
- What follow-up tests will I need, and how often will I need them?
- What support services are available to me? To my family?
- Whom should I call for questions or problems?
- Does my diagnosis mean that my close relatives have a higher risk of fallopian tube cancer?
