### **Questions to ask after getting a diagnosis**

- What type of salivary gland cancer do I have? What does this mean?
- Where is the cancer located?
- Can you explain my pathology report (laboratory test results) to me?
- What stage is the cancer? What does this mean?
- What is the grade of the cancer? How likely is it to grow and spread?

## Questions to ask about choosing a treatment and managing side effects

- What are my treatment options?
- What clinical trials are open to me? Where are they located, and how do I find out more about them?
- What treatment plan do you recommend? Why?
- What is the goal of each treatment? Is it to eliminate the cancer, help me feel better, or both?
- Should I get a second opinion?
- What are the possible side effects of each treatment, both in the short term and the long term?
- Who will be part of my health care team, and what does each member do?
- When should I talk with a dentist? Can you recommend an oncologic dentist?
- Should I talk with other specialists, such as a speech pathologist, before treatment begins?
- Who will be coordinating my overall treatment?
- How will this treatment affect my daily life? Will I be able to work, exercise, or perform my usual activities?
- Could this treatment affect my sex life? If so, how and for how long?
- Could this treatment affect my ability to become pregnant or have children? If so, should I talk with a fertility specialist before cancer treatment begins?
- If I'm worried about managing the costs related to my cancer care, who can help me with

these concerns?

- What support services are available to me? To my family?
- Whom should I call for questions or problems?
- Is there anything else I should be asking?

## **Questions to ask about having surgery**

- Can the tumor be completely removed using surgery?
- What type of surgery will I have? Will lymph nodes need to be removed?
- If so, what type of neck dissection will be done? What does this mean?
- Will it be necessary to remove part or all of the facial nerve? If so, can this nerve be reconstructed or can some of the function be recovered?
- Will it be necessary to have reconstructive surgery to replace lost tissue?
- How long will the operation take?
- How long will I be in the hospital?
- Can you describe what my recovery from surgery will be like?
- What are the possible long-term effects of having this surgery?
- Do you recommend additional treatment, such as radiation therapy?

## Questions to ask about having radiation therapy or chemotherapy

- What type of treatment is recommended?
- What is the goal of this treatment?
- How long will it take to give this treatment?
- What side effects can I expect during treatment?
- What are the possible long-term effects of having this treatment?
- What can be done to relieve the side effects?

## Questions to ask about planning follow-up care

- What is the risk of the cancer returning? Are there signs and symptoms I should watch for?
- What long-term side effects or late effects are possible based on the cancer treatment I received?
- What follow-up tests will I need, and how often will I need them?
- How do I get a treatment summary and survivorship care plan to keep in my personal records?
- Who will be coordinating my follow-up care?
- What survivorship support services are available to me? To my family?
