

## [Ovarian Cancer - Questions to Ask the Doctor](#) [1]

This section has been reviewed and approved by the [Cancer.Net Editorial Board](#) [2], 04/2015

**ON THIS PAGE:** You will find some questions to ask your doctor or other members of your health care team, to help you better understand your diagnosis, treatment plan, and overall care. To see other pages, use the menu on the side of your screen.

[Talking often with the doctor is important](#) [3] to make informed decisions about your health care. These suggested questions are a starting point to help you learn more about your cancer care and treatment. You are also encouraged to ask additional questions that are important to you. You may want to print this list and bring it to your next appointment, or [download Cancer.Net's free mobile app](#) [4] for an e-list and other interactive tools to manage your care.

### **Questions to ask after getting a diagnosis**

- What type of ovarian cancer do I have?
- Can you explain my pathology report (laboratory test results) to me?
- What is the stage and grade of my cancer? What does this mean?

### **Questions to ask about choosing a treatment and managing side effects**

- What are my treatment options?
- What treatment plan do you recommend? Why?
- What is the goal of each treatment? Is it to eliminate the cancer, help me feel better, or both?
- What clinical trials are open to me? Where are they located, and how do I find out more about them?
- Who will be part of my health care team, and what does each member do?
- Who will be coordinating my overall treatment and follow-up care?

## Questions to ask about having surgery

- What type of surgery will I have? Will lymph nodes be removed?
- How long will the operation take?
- How long will I be in the hospital?
- Can you describe what my recovery from surgery will be like?
- What are the possible long-term effects of having this surgery?

## Questions to ask about having chemotherapy or radiation therapy

- What type of treatment is recommended?
- What is the goal of this treatment?
- How long will it take to give this treatment?
- What side effects can I expect during treatment?
- What are the possible long-term effects of having this treatment?
- What can be done to relieve the side effects?
- Could this treatment affect my sex life? If so, how and for how long?
- Could this treatment affect my ability to become pregnant or have children? If so, should I talk with a fertility specialist before cancer treatment begins?
- How will this treatment affect my daily life? Will I be able to work, exercise, or perform my usual activities?
- If I'm worried about managing the costs related to my cancer care, who can help me with these concerns?

## Questions to ask about planning follow-up care

- What are the chances the cancer will recur?
- Are there signs and symptoms I should watch for?
- How can I keep myself as healthy as possible during treatment?
- What does it mean to say ovarian cancer is a "chronic disease"?
- What is the risk of the cancer returning? Are there signs and symptoms I should watch for?
- What long-term side effects or late effects are possible based on the cancer treatment I received?
- What follow-up tests will I need, and how often will I need them?
- How do I get a treatment summary and survivorship care plan to keep in my personal records?
- What survivorship support services are available to me/my child? To my family?
- Should other women in my family be tested regularly for ovarian cancer?
- Whom should I call for questions or problems?

The [next section in this guide is Additional Resources](#) [5], and it offers some more resources on this website beyond this guide that may be helpful to you. Or, use the menu on the side of your screen to choose another section to continue reading this guide.
