## [\*\*Pleuropulmonary Blastoma - Childhood - Questions to Ask the Doctor \[1\]\*\*](#)

**This section has been reviewed and approved by the [Cancer.Net Editorial Board \[2\]](#), 03/2016**

**ON THIS PAGE:** You will find some questions to ask your doctor or other members of your health care team, to help you better understand your child's diagnosis, treatment plan, and overall care. To see other pages, use the menu.

[Talking often with the doctor is important \[3\]](#) to make informed decisions about your child's health care. These suggested questions are a starting point to help you learn more about your child's care and treatment. You are also encouraged to ask additional questions that are important to you. You may want to print this list and bring it to your child's next appointment, or [download Cancer.Net's free mobile app \[4\]](#) for an e-list and other interactive tools to manage your child's care.

### **Questions to ask after getting a diagnosis**

- What type of PPB has been diagnosed? What does this mean?
- Can you explain my child's pathology report, or laboratory test results, to me?
- What is your familiarity with PPB and its treatment?

- Do you collaborate with the [International PPB Registry](#) [5]?

## **Questions to ask about choosing a treatment and managing side effects**

- What are my child's treatment options?
- What is the goal of each treatment? Is it to eliminate the tumor, help my child feel better, or both?
- What clinical trials are available for my child? Where are they located, and how do I find out more about them?
- What treatment plan do you recommend? Why?
- What is my child's prognosis?
- Should I seek a second opinion?
- Does your practice include multidisciplinary care?
- Who will be part of my child's health care team, and what does each member do?
- Who will be leading my child's overall treatment?
- Do you attend expert meetings to discuss complicated tumor cases? What kinds of specialists attend such meetings?
- What are the possible side effects of each treatment, both in the short term and the long term?
- How will this treatment affect my child's daily life? Will he or she be able to attend school and perform his or her usual activities?
- Is there anything we can do before starting treatment to avoid late effects?

- Could this treatment affect my child's ability to become pregnant or have children in the future? If so, should I talk with a fertility specialist before cancer treatment begins?
- If I am worried about managing the costs of medical care, who can help?

### **Questions to ask about having surgery**

- What type of surgery will my child have? Will lymph nodes be removed?
- How long will the operation take?
- How long will my child be in the hospital?
- Can you describe what my recovery from surgery will be like?
- What are the possible long-term effects of having this surgery?

### **Questions to ask about having radiation therapy or chemotherapy**

- What type of treatment is recommended?
- What is the goal of this treatment?
- How long will it take to give this treatment?
- What side effects can my child expect during treatment?
- What are the possible long-term effects of having this treatment?
- What can be done to relieve the side effects?

## Questions to ask about planning follow-up care

- What is the chance that the tumor will come back? Should I watch for specific signs or symptoms?
- What long-term side effects or late effects are possible based on the treatment for PPB that my child received?
- What follow-up tests will my child need, and how often will he or she need them?
- How do I get a treatment summary and survivorship care plan to keep in my child's personal records?
- Who will be leading my child's follow-up care?
- What survivorship support services are available to my child? To my family?
