

Hope S. Rugo, MD [1]

Cancer.Net Associate Editor: Breast Cancer

University of California San Francisco, Helen Diller Family Comprehensive Cancer Center

Dr. Hope S. Rugo is a Professor of Medicine in the Division of Hematology and Oncology at the University of California San Francisco (UCSF), Helen Diller Family Comprehensive Cancer Center, where she directs Breast Cancer and Clinical Trial Education. Her research interests include novel therapies for advanced breast cancer, immune modulation to restore chemotherapy sensitivity, evaluation of circulating cells as novel markers of response and resistance to therapy, neoadjuvant therapy, and supportive care.

Dr. Rugo is an investigator in the Bay Area Spore at the UCSF Breast Cancer Center, the national multi-center ISPY2 trial, and is the principal investigator of a number of clinical trials. She is one of three principal investigators of a recently awarded Komen Promise Grant, receives funding from the Breast Cancer Research Foundation, and serves on a number of steering committees for national and international trials. Dr. Rugo is a member of the ALLIANCE Breast Core Committee and the Translational Breast Cancer Research Consortium, is the UCSF representative to the NCCN Guidelines Committee, and serves on several committees for ASCO. She has published many peer-reviewed papers and has given presentations on a variety of cancer related topics.

With a summa cum laude undergraduate degree from Tufts University, Dr. Rugo received her MD from the University of Pennsylvania School of Medicine and completed both a residency in internal medicine and fellowship in hematology and oncology at UCSF. Additionally, she completed a two-year post-doctoral fellowship in immunology at Stanford University. She received the Cancer Care Physician of the Year award in 2010.

No conflict of interest reported.
